we like to say about the indian agricultural crop analysis in (1997-2021)

To idenyify the groth and decay of indian agriculture

To find the solution to rectify the decay of indian agriculture

Farmers need their own land

water,pesticides current supply

support from the goverment

we can observed in some years the lack of crop production due to lack of water

they are suffering to get their profit

they are try to increase their leavel

they affried to water scarcity

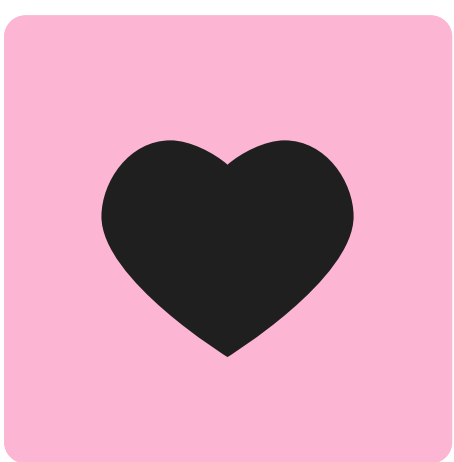

they worried about drought

they would like to get the minimum respect from the socity
